

## Summary

An enthusiast who is seeking an opportunity with an esteemed organization where I can utilize my skills and enhance learning in the field of work. I am capable of mastering new technologies.

## Skills

(WIP)

### ● React JS

Building Highly Reusable Components  
Recoil, Redux & Context API for Cetral State Management  
React Query for Asynchronous API Communication  
React Router DOM for Routing  
Material UI, Ant Design For UI Building  
React-Intl For Localisation

### ● Node JS

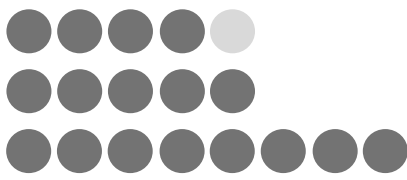

Building Highly Efficient Node JS Rest APIs  
Fastify & Express JS as framework of choice  
Node-Schedule and CRON Jobs for Task Scheduling  
MongoDB as database of choice  
Socket IO for Realtime-Communications  
Redis for Local Caching  
EJS Templating  
Experienced in Building Multi-Lingual Rest APIs  
Knowledge of Promises to Attain Parallelism in Async Operations

### ● MongoDB

Writing Efficient Queries To Achive Minimum Execution Time  
Basic MongoDB Queries and Operators  
Mongoose as Driver of Choice for NodeJS  
Aggregation Pipeline for Advanced Data Transformation  
Transactions to Attain Atomicity in Multi Documentaion Updation  
Knowledge of Geospatial MongoDB Queries  
Knowledge of Indexes and Compound Indexes to Speed up Queries  
Knowledge of Text Indexes to Achieve All Text Search  
Knowledge of Replication and Sharding  
Knowlede of Self Hosted & Managed (MongoDB Atlas) for DB Hosting

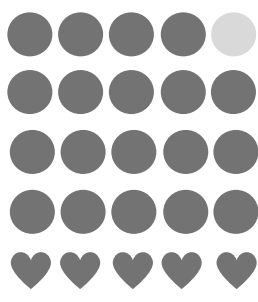

(WIP)

Git  
Visual Studio Code  
StackOverflow

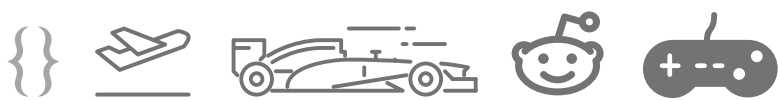

(WIP)

Social Skills  
Determination  
Team Spirit  
Curiosity  
Willingness to Learn

## Hobbies

## Experience

### Salsoft Technologies

Web Application Developer

March 2021 - Present

- Developing Complete Platforms From Start to Finish
- Managing Existing Projects
- Developing Complete Application Structure and Design
- Developing Production Ready Web Applications
- Developing REST APIs for Mobile Applications
- Working on Various Technologies like WebRTC, WebGL, RTMP etc.
- Highly Involved with Project Managers for Improving Application Flow
- Wokring on Multiple Web Applications Simultaneously
- Always Learning Something New

### Novasoft

MERN Stack Developer

June 2019 - March 2021

- Developing React Applications Using Material UI and Ant Designs
- Developing Frontend & Backend of Digital Mortgage Platforms

## Education

- Bachelors in Software Engineering (2017-2020)
  - Graduated with 3.2 CGPA
- Intermediate in Pre-Engineering

## Certications

- Web and Mobile Application Development | Saylani Mass IT Training Program
  - January 2018 - December 2018

## Project Highlights

- Developed a Complete Laboratory Information System as My Final Year Project for ICCBS Research and Development Center.
